

INFOSYS

Global leader in next-generation digital services & AI-first consulting | 50+ countries | 300,000+ employees

1. Company Overview

Infosys is pursuing an **AI-first strategy**, transitioning into a provider of advanced generative AI solutions while maintaining core strengths in cloud computing and digital transformation. For 2026, Infosys is launching a massive drive to onboard **20,000 freshers** for its Next-Gen Services initiative.

2. Hiring Process

- **Stage 1 – Recruitment Test:** Reasoning, Maths, Verbal & Pseudocode
- **Stage 2 – Coding Round:** For DSE & SP roles only
- **Stage 3 – Technical Interview:** OS, DBMS, CN, projects & programming
- **Stage 4 – HR Interview:** Behavioral fit & document verification
- **Special Paths:** HackWithInfy and InfyTQ challenges

3. Technical Stack

- Java / .Net – Spring Boot, Microservices, backend architecture
- Python – Data pipelines, backend services
- Cloud – AWS, Azure, DevOps (CI/CD, IaC)
- AI/ML & GenAI – PyTorch, TensorFlow, Scikit-learn, NLP
- Data Science – Predictive analytics, model deployment
- Foundations – SOLID, SDLC, Agile/Scrum

4. Recent News

- **Record Packages:** SP (L3) ■21L | SP (L2) ■16L | SP (L1) ■11L + ■1L bonus
- **Mass Hiring:** 20,000 freshers target confirmed by CEO Salil Parekh
- **AI Upskilling:** 2.75 lakh employees trained – AI-readiness is a priority
- **Campus Revival:** Full campus hiring resumed after 2-year slowdown

5. Eligibility Criteria

Criteria	Requirement
Education	BE/B.Tech, ME/M.Tech, MCA, MSc (CS/IT/Math)
Academic Score	Min 60% or 6.0 CGPA in 10th, 12th & Graduation
Backlogs	No active backlogs at time of application
Batch	2024, 2025 & 2026 graduates
Gap Year	Max 1–2 years (valid justification required)
Relocation	Must relocate to any Infosys Development Center

6. Preparation Tips

1. **Aptitude Speed:** Use Preplnsta. Target 1 question/min. Focus on logical series and puzzles.
2. **Pseudocode:** Practice tracing loops and data structures in a language-agnostic way.
3. **STAR Method:** Explain projects using Situation-Task-Action-Result. Highlight your ownership.
4. **HackWithInfy:** Strong coders should apply — fastest route to ■11L–■21L SP/DSE roles.
5. **Core CS Basics:** Write SQL queries on the spot. Explain OOP (Inheritance, Polymorphism) with examples.
